

Sycamore Strings Academy offers

GITAR WITH CHRISTINA

Group classes for beginners starting in 2nd – 5th grade and returning students of all ages.

MY GOALS

I am dedicated to providing my students with quality music education and a lifelong appreciation of music. My goal is to create a positive and encouraging setting - EVERYONE CAN LEARN if the environment is right. Through my lessons, students will develop musical talent as well as self esteem, and will experience the joy of playing and singing.

MY PROGRAM

"Guitar With Christina" is a music program within Sycamore Strings Academy for children who wish to sing and play chords on their guitars. Small group classes are offered to beginners in 2nd -5th grade and all returning students. Parents are welcome to learn together with their child for free! Beginners will learn the basics of guitar chord playing and will learn to sing favorite songs to their own accompaniment. The weekly group classes have 2-3 players where each student gets semi-individual attention at the same time as everyone is supported in making music together as a group. I will provide each student with an individualized songbook. Students will need their own guitar. I will be happy to help you selecting one. I also have some guitars for rent.
