

FOR IMMEDIATE RELEASE

Valley Montessori School Celebrates Campus Expansion with new Building Dedication

Livermore, California - Friday, September 10, 2010

The Valley Montessori School community was joined by Mayor Marshall Kamena at their school picnic to celebrate the success of their Campus Expansion and officially dedicate their new 9000 square foot building. The new building at VMS added six additional classrooms and a half-court gymnasium to their existing 37,000 square foot school site on North Livermore Avenue.

VMS Head of School, Mary Ellen Kordas explains, "Growing our campus to fit the needs of our families was the result of a shared vision to provide space for our younger students moving into the Elementary and Middle School programs. With the additional space and a new gym, we have been able to enhance the educational experience for all of our students."

Valley Montessori is a fully accredited, non-profit school serving families in the East Bay for over thirty years. VMS offers an opportunity for children to become independent, confident, competent individuals who will lead our world into the future. VMS serves over 500 students from toddler through middle school with a challenging, integrated curriculum in multi-aged classrooms. For more information, visit valleymontessorischool.com.
